

Experts **on** demand

YOUR SOFTWARE SECURITY SAFETY BLANKET

As an extended member of your team, we deliver:

- **ONGOING MENTORSHIP** on security activities, policies, controls, and skills
- **SPECIALIZED COUNSEL** to remediate vulnerabilities and solve complex problems
- **BROAD COVERAGE** spanning privacy, compliance, threats and risk
- **TECHNICAL REVIEW** of software documentation, design, and deployment
- **REMOTE SUPPORT** via phone, instant messaging, and email

Our EoD consultants help overcome knowledge and resource gaps by advising your teams on security topics or implementing solutions for you. As a security overlay to your team, they serve as a trusted advisor for both situational and longer-term projects.

No issue is too small or infrastructure too big for EoD.

SI CREDITS FOR PREDICTABLE, COST-EFFECTIVE SPENDING

Buy SI Credits and use them throughout the year as needed. The more credits you purchase, the more you save. You also receive priority scheduling and regular “check-in” calls to identify challenges and measure progress.

EXPERT AND VERSATILE ROSTER

Our staff include software security engineers, information security analysts, and creative problem solvers with the know-how to support any software development or IT environment. They hold over 100 certifications and include Microsoft MVPs; Apple, Adobe, and Barracuda Security Hall of Famers; Privacy by Demand Ambassadors; and Ponemon Institute Distinguished Research Fellows.

BENEFITS

- **Get rapid results** — little to no ramp-up time on domain expertise
- **Save costs** — build security in without the burden of a full-time resource
- **Groom security champions** — organization-specific knowledge continuously transferred
