

HIPAA

COMPLYING WITH HIPAA REGULATIONS

Security Innovation offers three HIPAA modules to help train staff on HIPAA compliance behaviors. Each offers foundational HIPAA awareness content along with role specific content and knowledge checks for each:

HIPAA for Covered Entities - those who electronically transmit health information and transactions

HIPAA for Business Associates - those involved in the use or disclosure of protected health information

HIPAA for Hybrid Entities - those that performs both covered and non-covered functions

CORE MODULE CONTENT

Our HIPAA awareness courses act as a foundational component of your HIPAA compliance program. Using realistic simulations and interactions, they help your employees understand how HIPAA policies and procedures relate to their individual behaviors so they can avoid costly mistakes.

We cover the most current HIPAA requirements and regulations to fully document your organization's HIPAA compliance training activities, including an optional integrated pledge page to have your employees acknowledge their responsibilities from within the course.
